

## Week 3 Meeting Notes

Time: 18:10 to 18:35

- We have discussed activity model and use cases, we have also set a target to complete Task 2 before next week meeting which is Software quality requirement.
- Security and privacy protection
- Performance
- Reliability
- Scalability

Next week, we will ask the lecturer what kind of format do we need to upload for the activity diagram and UML diagram, for example screenshot or upload the file directly to GitHub.

Attendance: Antony, Abdul, Taher, Shayan
