

## Week 5 meeting Notes

Time: 18:00–18:15

- We have discussed getting all of our progress to task 3 so that we are all working at the same task.
- We have reviewed the marking scheme for better understanding what needs to be included.
- Set a time for next meeting.
- Talked about primary actors for our subsystem.

Objectives to do before next week's meeting.

- We need to have a draft of the use case diagram for our subsystem.
- We aim to have a draft of activity model for our subsystem to show interactions between subsystems and the user.
