

## Week 4 Meeting Notes

Time:21:00 to 21:10

- The review of Task 2 has been completed by both of us, which is the target set from last week. Including security and privacy protection, performance, reliability and scalability.
- Constructive feedback has been provided to each other and improvements are planned to be completed before the next meeting.

Target: The objective for the upcoming meeting is to have our first draft of the UML diagram ready to be reviewed by each other. Which we will then review it during the next meeting and make necessary changes and adjustments.

Attendance:Antony, Abdul
