Diagram Details:

1. **Use Case Diagram:**
   ○ **Purpose:** Define primary actors and interactions for the subsystem, outlining its scope within the project.
   ○ **Elements to Include:**
      ■ Actors Main use cases and any supporting use cases
      ■ Connections (associations, extensions, or generalisations as applicable)
2. **Activity Diagram:**
   ○ **Purpose:** Show the workflow and sequence of actions for the selected use case, illustrating user and system interactions.
   ○ **Elements to Include:**
      ■ Start and end points
      ■ Actions or activities within the use case
      ■ Decision points, if applicable
      ■ Swimlanes to differentiate user vs. system actions, if needed

---

Key Dates:

- **Drafts Due:** 17 October 2024
   ○ Aim to have a first version of both diagrams ready for internal review and feedback.
- **Final Submission:** 21 October 2024
   ○ Finalise and polish diagrams based on peer feedback and ensure consistency with team standards.
